

Vacancy: **Senior Procurement Engineer**

Location: **Artea (Bilbao)**

---

### **Our history:**

**CycleØ**, headquartered in London, was founded in 2022 to take immediate action to slow the pace of global warming by capturing methane emissions mainly from the agrifood industry.

As an integrated biomethane supplier, we build, own, and operate small-scale distributed biomethane plants in Europe and beyond. Manufactured by our subsidiary, **FNX**, located in the Spanish Basque country, our modular plant designs are fully tested in-house, making for easy deployment at any production site.

### **The role:**

As Senior Procurement Engineer you will oversee the organization's sourcing capabilities and be responsible for acquiring goods and services of the highest quality at the most optimal cost.

### **What you will be doing:**

- You will work in close collaboration with the engineering and project management departments throughout the bidding and award process to ensure the timely delivery and quality of products and services delivered; and provide support to the sales team in the estimation project cost and schedule.
- Goods purchased range from mechanical components (compressors, exchangers, etc.), electrical components (panels, cables, etc.) and general manufacturing components (tube, structure, valves, etc.), to services (geotechnical, civil, etc.)
- You'll manage the end-to-end Procurement cycle from vendor selection, request for quotations, comparative analysis, price negotiations, finalizing terms and conditions, placing and follow-up of PO's, up to engineering change requests and monitoring vendor performance, ensuring compliance with project budget, deadlines, quality standards, and sustainability objectives.
- You will drive cost reduction and process improvement projects, and support project profitability by identifying and applying potential savings.

### **Your Talent and Knowledge (that are key for this role):**

- Engineering degree qualified with a minimum of 5 years' experience in a similar role.
- Experience in the Gas sector is a big advantage.
- Exceptional technical and negotiation skills.
- Good level of English both spoken and written.
- Pro-active team player with a passion for sustainability.

### **What we offer:**

- We operate in a dynamic and challenging environment that promotes autonomy and innovation. We work together as a team, sharing ideas and opinions.
- Our teams are passionate and driven, operating with a strong sense of purpose to "deliver immediate solutions to curb climate change".
- Our ambitions go hand in hand with opportunities that will challenge and reward our teams.
